

AASHTOWare Project™ 4.0

10 Reasons to Upgrade

The AASHTOWare Project™ 4.0 software includes several enhancements, maintenance and warranty items, and technology upgrades. Staying current with the software allows your agency to benefit from the new and upcoming enhancements as they become available.

Your top ten reasons for upgrading to the latest version of software are:

Integration

Introduces the AASHTOWare Project Decision Support™ module, utilizing data from the AASHTOWare Project Estimator™ and AASHTOWare Project Preconstruction™ software.

Better Tracking

Daily work report items automatically result in calculation of the material's installed quantity.

Performance

Continuous research and testing provide an improved user experience.

Visualization

Create static or dynamic data images within agency views.

Consistency

Create contract approval workflows based on contract types.

Materials Administration

Provide users with security access to materials samples, tests, and lab queues.

Streamlined

Provides simpler, more direct navigation from the cost estimate item to its bid-based task.

Greater Efficiency

Provides a “one-stop shop” to streamline the management of agency view associations.

More Secure

Read and write access to an agency view based on the user's security access.

Flexibility

Insert or delete items anywhere in the Cost Estimate Item Pricing Worksheet.
